

THE ALARM SYSTEM YOU INSTALLED TODAY, MAY NOT WORK TOMORROW...

 **Thursday 15th March 2018 | IFSEC, 240 Blackfriars Road, London, SE1 8BF.**

How changes to the UK telecommunications network may affect the Fire, Security and Telecare industries.

There's been a lot of talk in the industry about the PSTN switch off and upcoming changes happening to the telephone network. Do you want to know how these changes will impact you? We're hosting an event to provide you with all the information you need to plan the switch from analogue to an ALL-IP digital network for your new and existing alarm signalling systems.

Programme

09.30	Registration and Refreshments	11.45	Coffee Break
10.30	Opening and introduction from the Trade Associations	12.05	CP (Communications Providers) perspective on the impact of All IP BT Consumer, Virgin Media
11.00	Ofcom The regulator's update on the changes	12.45	Q&A Session
11.15	NICC Interoperability Standards & guidance impacting All IP	13.05	Summary & final thoughts
11.30	Openreach Access providers view	13.15	Lunch

Who should attend?

If you are involved in the design, installation, maintenance or monitoring of alarm systems this is an event you should not miss.
