

April 2021

Work currently in progress on UK, European and International Standards includes:-

Access Control

BS 7582 - Reconditioning and refurbishment of used safes – Code of practice – publication of standard is expected May 2021.

BSIA Guidance – work in progress:

The following are current due for review:

- Form 119** – Guide to Access Control for utilities sector
- Form 137** – Guide to access control for the transport sector
- Form 145** – A guide to access control and sustainability
- Form 151** – Access Control Users' Basic Guide
- Form 162** – A guide to access control in the retail sector
- Form 177** – Access control in care homes
- Form 198** – Token & Reader – access control technology
- Form 209** – Security Turnstiles
- Form 242** – Guide to access control in industrial premises
- Form 246** – Guide to access control in offices
- Form 269** – Guide to access control in educational establishments
- Form 293** – A guide to access control for the healthcare sector

Asset and Property Marking

BSIA Form 121 – Asset marking products – requirements and test method is in the process of being adopted as a British Standard.

ISO TS 22604 - Biometric recognition of subjects in motion in access related systems has been circulated for comment.

BSIA Guidance – work in progress:

The following are currently being reviewed:

- Form 147** – As introduction to PAS 820
- Form 156** – Metal Theft – a guide to securing your business
- Form 165** – Property marking – A guide to protecting your bicycle
- Form 291** – Manufacture, application and data recording of asset marking systems – Code of Practice

ARCs

BS 9518 (was BS 8591:2014) - Handling of alarm signals by an alarm receiving centre has been circulated for comment.

Biometrics

ISO/IEC 30137-2 – Use of Biometrics in video surveillance systems – Part 2: Performance testing and reporting – has been circulated for technical comments and vote.

ISO TS 22604 – Biometric recognition of subjects in motion in access related systems has been circulated for comment.

Cash and Valuables in Transit

BS 7872 - Manned security services. Cash and valuables in transit services (collection and delivery). Code of practice is due for 5 year review.

Covid-19

BSIA Guidance

Form 345 - COVID-19 risk assessment considerations for mobile workers - electronic fire and security companies has been published and is available to download from the BSIA website.

Critical Infrastructure

EN 17483-1 - Private security provision for the protection of Critical Infrastructure - Part 1: General requirements – has been circulated for comment.

It should be noted that this document is not a European Standard and has been distributed for review and comments only. It is subject to change without notice and shall not be referred to as a European Standard.

Cyber Security

The BSIA's Cyber Security Product Assurance Group (CySPAG) are now working on a Cybersecurity Code of Practice for manufacturers.

External Perimeter Protection Systems (EPSS)

EN 50661-7 – External Perimeter Security Systems application guidelines - work is in progress. Several BSIA experts have joined the working group.

Fire

BS 5839-9 - Fire detection and fire alarm systems for buildings Part 9: Code of practice for the design, installation, commissioning and maintenance of emergency voice communication systems has been circulated for comment.

General

PAS 29000 – Commercially operated vehicles – Framework for mitigating security risks from malicious use – specification has been circulated for comment.

Information Destruction

PAS 908 – Specification for automated pneumatic waste collection systems – 2nd draft has been circulated for public consultation.

TS 27022:2021 - Information technology — Guidance on information security management system processes has now been published.

I&HAS

BSIA alarm user handbooks are available to purchase and include up to date information on hold-up alarm intervention along with other industry documentation for hand-over to the client. For more details contact Shirley Price at s.price@bsia.co.uk or call on 01905 342023 for pricing details.

BS 8243 - Installation and configuration of intruder and hold-up alarm systems designed to generate confirmed alarm conditions. Code of practice – has been circulated for comment.

BS 9263 - Intruder and hold-up alarm systems. Commissioning, maintenance and remote support. Code of practice – has been circulated for comment.

EN 50131-1 – Alarm systems – intrusion and hold-up systems – Part 1 – system requirements – is currently under review.

EN 50131-2-2 - Alarm systems - Intrusion and hold-up systems - Part 2-2: Intrusion detectors - Passive infrared detectors is currently under review.

BS EN 50136-3:2013 – Alarm systems. Alarm transmission systems and equipment. Part 3. Requirements for Receiving Centre Transceiver (RCT) - draft amendment has been circulated for comment/vote

PD CLC/TS 50136-9:2017 – Alarm systems. Alarm transmission systems and equipment. Requirements for common protocol for alarm transmission using the Internet Protocol (IP) has now been published.

TS 50136-10 - Alarm systems - Alarm transmission systems and equipment -- Part 10: Requirements for remote access – this is a new work item which originated from Euralarm and has been circulated for comment.

Lone Workers

BSIA Guidance – work in progress:

The following guidance documents are currently being updated:

Form 113 - Code of Ethics for lone worker services

Form 168 - A guide to lone worker services for the transport sector

Form 256 - The use of a lone worker device or app

Form 284 – Lone Workers – an Employees guide

Form 285 - A guide to lone worker services in the hospitality sector

Form 304 - A guide to lone worker services for the retail sector

BS8484 Badge Suite - Usage guidelines

Security Consultancy

BS 8549 - Security consultancy. Code of practice – has been circulated for comment.

Security Equipment Manufacturers

EN 50131-2-2 - Passive infrared detectors is being revised to include ceiling mounted detectors and alignment with other standards is currently under review.

EN 50131-2-3 - Alarm systems - Intrusion and hold-up systems - Part 2-3: Requirements for microwave detectors has been circulated for comment.

PD CLS/TS 50131-5-1 - Alarm systems - Intrusion systems - Part 5-1: Interconnections - Requirements for wired Interconnection for I&HAS equipment located in supervised premises has been now been published.

prEN 50134-5 - Alarm systems - Social alarm systems - Part 5: Interconnections and communications – has been circulated for comment.

ETSI EN 300 386 v2.2.0 – Telecommunication network equipment – EMC has been circulated for comment.

Security Officer Services

BS 8507-1 – Code of practice for close protection services outside UK and **BS 8507-2** – Code of practice for close protection within UK are both due for revision.

Security Systems

prEN 50710 – Guidelines and requirements for Remote Services for fire safety and security systems – enquiry draft has been circulated for comment.

User Identification Systems

BS 8626 - Design and operation of online user identification systems – Code of practice now been published.

Vacant Property Protection

BS 8584:2015 – Vacant Property Services – Code of Practice will require a revision to bring it in line with BS 10800.

Visual Surveillance Systems

IEC 62676-5-1 – Environmental test methods for image quality performance – committee draft has been circulated for comment.

IEC 62676-6 – Alarm systems – Video surveillance systems (VSS) for use in security applications – Video content analytics – Performance testing – has been circulated for comment.

BSIA CCTV user handbooks are available to purchase and include up to date information on best practice for CCTV along with other industry documentation for hand-over to the client. For more details contact Shirley Price on s.price@bsia.co.uk or call on 01905 342023 for pricing details.

Also see under Biometrics heading **ISO/IEC CD 30137-2**.

CD 30137-4 – Use of biometrics in video surveillance systems – Part 4 Ground truth and video annotation procedure – final draft has been circulated for comment.

ISO TS 22604 - Biometric recognition of subjects in motion in access related systems has been circulated for comment.

BSIA Guidance

The following BSIA guidance documents are currently under review:

Form 109 – Code of Practice for VSS (CCTV)

IEC

Other items of work within IEC – see below.

Project	Stage	Subject
IEC 62692 Ed. 1.0	CDVM	Alarm and electronic security systems - Digital door lock systems - Requirements and test methods
IEC 60839-11-33 ED1	RFDIS	Alarm and electronic security systems - Part 11-33: Electronic access control systems - Access control configuration for IP Interoperability based on web services
IEC 62676-6	ACDV	Video surveillance systems for use in security applications – Part 6: Video content analytics – Performance testing and grading
IEC 62676-2-33	TCDV	Video surveillance systems for use in security applications – Part 2-33: Cloud uplink and remote management system access
IEC 62676-5-1	ACDV	Video surveillance systems (VSS) for use in security applications – Part 5-1: Environmental test methods for image quality performance
IEC 62676-2-11	ACD	Alarm systems – Video Surveillance Systems (VSS) for use in security applications – Part 2-11: Interop profiles for VMS- and cloud VSaaS-systems for safe-cities and law-enforcement
IEC 62820-1-1	ACD	Building intercom systems – Part 1-1: System requirements – General
IEC 62820-1-2	ACD	Building intercom systems – Part 1-2: System requirements – Building intercom systems using the internet protocol (IP)

Abbreviations

1CD = 1st Committee Draft

A2CD = Approved for 2nd Committee Draft

ACD = Draft approved for Committee Draft

ACDV = Draft Approved for Committee Draft with Vote

AFDIS = Approved for FDIS Circulation

ANW = Approved New Work

APUB = Draft Approved for Publication

BPUB = Publication being Printed

CCDV = Draft Circulated as CDV

CDIS = Circulated FDIS

CDTS = Circulated Draft Technical Specification

CDV = Committee Draft for Vote (equivalent to CENELEC Draft for Enquiry)

DEC = Draft at Editing Check

FDIS = Final Draft International Standard (equivalent to CENELEC Draft for Vote)

PCC = Preparation of CC

PNW = Proposed New Work

PRVN = Preparation for RVN

PPUB = Publication Issued

RDIS = Text for FDIS

RPUB = Publication received and registered

RVN = Result of Voting on New Work Item Proposal

TFDIS = Translation of FDIS
