October 2020

Work currently in progress on UK, European and International Standards includes:-

Access Control

BS 7583 - Reconditioning and refurbishment of used safes – Code of practice – has been circulated for comment.

IEC 60839-11-5 - Electronic access control systems - Open Supervised Device Protocol (OSDP) has now been published.

BSIA Guidance – work in progress:
The following are currently being reviewed:

Form 119 – Guide to Access Control for utilities sector
Form 137 – Guide to access control for the transport sector
Form 145 – A guide to access control and sustainability
Form 151 – Access Control Users' Basic Guide
Form 162 – A guide to access control in the retail sector
Form 177 – Access control in care homes
Form 198 – Token & Reader – access control technology
Form 209 – Security Turnstiles
Form 242 – Guide to access control in industrial premises
Form 246 – Guide to access control in offices
Form 269 – Guide to access control in educational establishments
Form 293 – A guide to access control for the healthcare sector

Asset and Property Marking

BSIA Form 121 – Asset marking products – requirements and test method is in the process of being adopted as a British Standard.

BSIA Guidance – work in progress:
The following are currently being reviewed:

Form 147 – As introduction to PAS 820
Form 156 – Metal Theft – a guide to securing your business
Form 165 – Property marking – A guide to protecting your bicycle
Form 291 – Manufacture, application and data recording of asset marking systems – Code of Practice
Form 298 – Code of Ethics for APM members

ARCs

BS 9518 (was BS 8591:2014) - Handling of alarm signals by an alarm receiving centre – is currently being reviewed.

Biometrics

ISO/IEC 30137-2 – Use of Biometrics in video surveillance systems – Part 2: Performance testing and reporting – has been circulated for technical comments and vote.

Covid-19

BSIA Guidance
Form 345 - COVID-19 risk assessment considerations for mobile workers - electronic fire and security companies has been published and is available to download from the BSIA website.

Critical Infrastructure

EN 17483-1 - Private security provision for the protection of Critical Infrastructure - Part 1: General requirements – has been circulated for comment

It should be noted that this document is not a European Standard and has been distributed for review and comments only. It is subject to change without notice and shall not be referred to as a European Standard.

Cyber Security

BSIA Form 342 - Installation of safety and security systems – Cybersecurity code of practice
Has now been published and the BSIA's Cyber Security Product Assurance Group (CySPAG) are about to start working on a Cybersecurity Code of Practice for manufacturers.

External Perimeter Protection Systems (EPSS)

EN 50661-7 – External Perimeter Security Systems application guidelines - work is in progress. Several BSIA experts have joined the working group.

Information Destruction

PAS 908 – Specification for automated pneumatic waste collection systems – 2nd draft has been circulated for public consultation.

I&HAS

BSIA alarm user handbooks are available to purchase and include up to date information on hold-up alarm intervention along with other industry documentation for hand-over to the client. For more details contact Shirley Price at s.price@bsia.co.uk or call on 01905 342023 for pricing details.

EN 50131-2-2 - Alarm systems - Intrusion and hold-up systems - Part 2-2: Intrusion detectors - Passive infrared detectors is currently under review.

EN 50136-3:2013 – draft amendment has been circulated for comment/vote

TS 50136-9:2017 – has been circulated for comment/vote on a new work proposal for an amendment to the standard.

TS 50136-10 - Alarm systems - Alarm transmission systems and equipment -- Part 10: Requirements for remote access – this is a new work item which originated from Euralarm and has been circulated for comment.

The following ETSI standards have been been published:

EN 303 648 V1.1.2 - Reconfigurable Radio Systems (RRS); Radio Equipment (RE) reconfiguration architecture (AP)

EN 303 681-1 V1.1.2 - Reconfigurable Radio Systems (RRS); Radio Equipment (RE) information models and protocols for generalized software reconfiguration architecture; Part 1: generalized Multiradio Interface (gMURI) (AP)

EN 303 681-2 V1.1.2 - Reconfigurable Radio Systems (RRS); Radio Equipment (RE) information models and protocols for generalized software reconfiguration architecture; Part 2: generalized Reconfigurable Radio Frequency Interface (gRRFI) (AP)

EN 303 681-3 V1.1.2 - Reconfigurable Radio Systems (RRS);
Radio Equipment (RE) information models and protocols for generalized software reconfiguration architecture; Part 3: generalized Unified Radio Application Interface (gURAI) (AP)

EN 303 681-4 V1.1.2 - Reconfigurable Radio Systems (RRS);
Radio Equipment (RE) information models and protocols for generalized software reconfiguration architecture; Part 4: generalized Radio Programming Interface (gRPI) (AP)

Lone Workers

<u>BSIA Guidance – work in progress:</u>

The following guidance documents are currently being updated:
Form 113 - Code of Ethics for lone worker services
Form 114 - Hold up alarms (personal attack) - a guide – revised form will be published shortly.
Form 168 - A guide to lone worker services for the transport sector
Form 194 - Guidance note for the production of the lone worker device/application technical file
Form 256 - The use of a lone worker device or app
Form 284 – Lone Workers – an Employees guide
Form 285 - A guide to lone worker services in the hospitality sector
Form 288 - Lone workers - an Employers guide
Form 304 - A guide to lone worker services for the retail sector
BS8484 Badge Suite - Usage guidelines

Security Equipment Manufacturers

EN 50131-2-2 - Passive infrared detectors is being revised to include ceiling mounted detectors and alignment with other standards.

EN 50131-5-1 - Alarm systems - Intrusion systems - Part 5-1: Interconnections - Requirements for wired Interconnection for I&HAS equipment located in supervised premises has been circulated for comment.

prEN 50134-5 - Alarm systems - Social alarm systems - Part 5: Interconnections and communications – is currently at the enquiry stage and the draft has been circulated for comment accordingly.

Security Officer Services

BS 8406 – Event stewarding and crowd safety – Code of practice has now been published.

BS 8507-1 – Code of practice for close protection services outside UK and **BS 8507-2** – Code of practice for close protection within UK are both due for revision.

Security Systems

prEN 50710 – Guidelines and requirements for Remote Services for fire safety and security systems – enquiry draft has been circulated for comment.

User Identification Systems

BS 8626 - Design and operation of online user identification systems – Code of practice has been circulated for comment.

Vacant Property Protection

BS 8584:2015 – Vacant Property Services – Code of Practice is currently due for review and members have been asked to indicate they would like it to be reviewed.

Visual Surveillance Systems

IEC 62676-5-1 – Environmental test methods for image quality performance – committee draft has been circulated for comment.

IEC 62676-6 – Alarm systems – Video surveillance systems (VSS) for use in security applications – Video content analytics – Performance testing – has been circulated for comment.

BSIA CCTV user handbooks are available to purchase and include up to date information on best practice for CCTV along with other industry documentation for hand-over to the client. For more details contact Shirley Price on s.price@bsia.co.uk or call on 01905 342023 for pricing details.

Also see under Biometrics heading **ISO/IEC CD 30137-2.**

CD 30137-4 – Use of biometrics in video surveillance systems – Part 4 Ground truth and video annotation procedure – final draft has been circulated for comment.

IEC

Other items of work within IEC – see below.

Project	Stage	Subject
IEC 62692 Ed. 1.0	CDVM	Alarm and electronic security systems - Digital door lock systems - Requirements and test methods
IEC 60839-11-33 ED1	AFDIS	Alarm and electronic security systems - Part 11-33: Electronic access control systems - Access control configuration for IP Interoperability based on web services
IEC 62676-6	ACDV	Video surveillance systems for use in security applications – Part 6: Video content analytics – Performance testing and grading
IEC 62676-2-33	ACDV	Video surveillance systems for use in security applications – Part 2-33: Cloud uplink and remote management system access
IEC 62676-5-1	ACDV	Video surveillance systems (VSS) for use in security applications – Part 5-1: Environmental test methods for image quality performance
IEC 62676-2-11	ACD	Alarm systems – Video Surveillance Systems (VSS) for use in security applications – Part 2-11: Interop profiles for VMS- and cloud VSaaS-systems for safe-cities and law-enforcement

Abbreviations

1CD = 1st Committee Draft
A2CD = Approved for 2nd Committee Draft
ACD = Draft approved for Committee Draft
ACDV = Draft Approved for Committee Draft with Vote
AFDIS = Approved for FDIS Circulation
ANW = Approved New Work
APUB = Draft Approved for Publication
BPUB = Publication being Printed
CCDV = Draft Circulated as CDV
CDIS = Circulated FDIS
CDTS = Circulated Draft Technical Specification
CDV = Committee Draft for Vote (equivalent to CENELEC Draft for Enquiry)
DEC = Draft at Editing Check
FDIS = Final Draft International Standard (equivalent to CENELEC Draft for Vote)
PCC = Preparation of CC
PNW = Proposed New Work
PRVN = Preparation for RVN
PPUB = Publication Issued
RDIS = Text for FDIS
RPUB = Publication received and registered
RVN = Result of Voting on New Work Item Proposal
TFDIS = Translation of FDIS
